Our Inspiration...

Dr. Patangrao Kadam

Founder - Bharati Vidyapeeth | Chancellor - Bharati Vidyapeeth Deemed University

Message from Chancellor

Prof. Dr. Shivajirao Kadam

Dear Students,

I am indeed happy to note your interest in joining our University. As its Vice Chancellor, I offer you a very cordial welcome. I must say that your critical wisdom is reflected in choosing our University for your further studies. This is mainly because this University has established its academic credentials not only in the country but even across the borders. This is further underlined by the fact that we get scores of students not only from different parts of India, but also from other countries.

You will be one of the very few fortunate students, if you could get admission to any of the courses, which are being conducted in this University. You must make the best use of this opportunity. I must say that, future of young people of your generation is full of opportunities and promises. The worlds of knowledge and the professions are undergoing transformation at a very rapid rate. On the one hand, there is continuous explosion of knowledge everywhere, new technologies and new skills are emerging. There is a wide spectrum of new fields of knowledge available now. At the same time, the horizons of professional activities are getting expanded. Newer and newer professions are emerging and so now there is much wider scope for the

people of younger generation to show their talents and for achievements. However, it must be remembered that they will have to equip themselves with the abilities and capacities, which are required for these new areas of professions. The field of higher education in our country like elsewhere in the world is impregnated with rapid changes and dynamism. The students of this generation will have to keep pace with this vibrant system of higher education.

We, at Bharati Vidyapeeth University, are committed to provide you with excellent education and training in the field, which you will choose for your study. Keeping in view the changing requirements of professions and industries, we continuously update the courses and their syllabi being taught in our institutions.

Our libraries and laboratories are also continuously updated. While we are anxious to see that the quality of education given to the students be high, we also pay equal attention to bring about the all sided development of their personalities. There are abundant opportunities for our students for giving expression to their inner literary and artistic talents, as well as, sportsmanship. We are committed to see that the students coming out of portals of this University will be well studied and trained and we also expect them to be responsible citizens.

You will be happy to know that the track record of achievements of our alumni is indeed commendable. Scores of our students have proved their mettle and have established themselves successfully in different spheres of life. We have no doubt that in due course, you will be one of the members of the club of these selected ones. I am aware of the vision, which you have of your future career, and the dreams which you are cherishing in your minds. Let me assure you that we help you to realize them. So, let us work together and make an endeavor to build a fine career for yourself.

I wish you a very promising and fruitful career as the students of this University. Affectionately,

Prof. Dr. Shivajirao Kadam

Message from Vice - Chancellor

Prof. Dr. M. M. Salunkhe

Dear Students,

It is a matter of immense pleasure for me to be a part of the Bharati Vidyapeeth (Deemed to be University) family as its Vice Chancellor. I take this opportunity to welcome the new students joining the various courses of the university. In most of the cases, students move away from the folds of their family and come to a new place for education. They need to feel that they are just moving away from one family fold to another. Their teachers, seniors and peers, all form an extended family from whom they can look up for any guidance, support and help to move ahead in life as professionals in the study programs they have opted.

The Center for Health Management Studies and Research, is an important center under Medical College which is gaining importance, mainly owing to the challenges faced in the Health Management sector. There has been an ever increasing number of hospitals with diverse and varied nature of nursing homes, small private hospitals as well as multi - specialty tertiary care hospitals, large numbers of which have evolved over the last few years. In the absence of a particular format in their functioning or regulation, there is a need of enhanced governance, as training and

development of the health care managers. This can play a crucial role in setting the background for this change. With this focus and challenge in mind, the Center for Health Management Studies and

Research has been set up at the Bharati Vidyapeeth (Deemed to be University). It is among the only few institutes in the country to provide hands-on experiential training in this sector of learning/training. Further, the multi-disciplinary nature of the campus provides conducive learning environment for personal and professional development of its students through various activities. All these, along with the serene environment of the campus of the university with ICT attributes are bound to enhance the student potential. I, wish and assure you, on behalf of the University family, that we will help you pursue your objectives of life under the varied social, cultural and economic environment and make the University family proud of your attainments.

Prof. M. M. Salunkhe .

Message from Pro Vice - Chancellor

Dr. Vishwajeet Kadam

Dear student,

I am extremely happy that you have chosen this University as a stepping stone for your future progression as a professional.

Dr. Patangrao Kadam Establishes Bharati Vidyapeeth at the age of 19 in May 1964. Within a span of few decades, he developed it into one of the largest educational organizations in the country known for its high academic excellence within the country and beyond. Dr. Patangrao Kadam had envisioned metamorphosing Bharati Vidyapeeth into a full-fledged University, which came to be true in April 1996 when the Government of India conferred the status of 'Deemed to be University'. Its high academic standing has been acknowledged by the NAAC which has awarded it with A+ grade successively in three rounds. The University is placed under Category - I by the UGC. The university has been ranked 66th among Universities by NIRF - 2018.

Current global challenges require graduates with advanced skills who will drive growth in the industrial and technological spheres and one who continues to learn so as to grow professionally and personally. The constituents units of Bharati Vidyapeeth (Deemed to

be University) will provide enabling platforms where student learning is enriched as per requirements of the industry.

We dedicate our intellectual resources to advancement in the field through research activities so as to develop and empower students with requisite expertise and understand and address changes impacting the world. Our close linkages with industry has enabled development of curriculum based on latest industry requirement, experiential learning with the help of experts and career progression through placement. In testimony are our alumni who are working in the best organizations globally and as successful entrepreneurs.

Through our guiding principles we are committed to provide quality education in different disciplines and a conducive environment to be an effective contributor professionally and for the growth of the nation.

I once again welcome you, and wish you all success in your academic pursuit.

Dr. Vishwajeet Kadam.

About University

Bharati Vidyapeeth (Deemed to be University)

- Has created excellent infrastructure for all its constituent units, including well structured spacious buildings, continuously updated laboratories and libraries and hostels with all the necessary amenities and facilities for both boys and girls.
- Has built a specialized research institute accommodating 18 laboratories for the researches in pharmaceutical sciences.
- Has launched laudable outreach programs through NSS units.
- Is proud of its Institute of Environmental Science and Research Education, which has been identified as a nodal agency by the Government of India for its programs of biodiversity and environmental products. It has adopted several primary schools with a view to create environmental consciousness among their students.
- Has established Women's Creativity Development Centre to undertake researches regarding women, particularly, those of disadvantage groups and to promote creativity among them.

About CHMSR

Center for Health Management Studies and Research (CHMSR)

The Healthcare industry is emerging as one of the promising sectors in the economy and is expected to reach over US\$ 150 billion by 2017 according to Technopak Advisors in their report 'India Healthcare Trends 2008. According to Price Water house Coopers 'Healthcare in India: Emerging market report', revenues from the healthcare sector account for 5.2 per cent of the GDP, making it the third largest growth segment in India. Existing healthcare organizations are expanding by opening hospitals in new service areas and new organizations are entering with state-of-the-art equipment, latest technology and marketing strategies. India is also eyeing the global healthcare market to emerge as one of the possible destinations for international patients.

India needs to add 2 million beds to the existing 1.1 million by 2027, and requires immediate investments of US\$ 82 billion. An explosion of technology has occurred that will require managers to have a new set of skills, coupled with knowledge of traditional healthcare organizations. Until recently doctors without any professional management training were supervising and governing the hospitals and health care systems. These doctors were not only finding it difficult but were also unable to devote sufficient time for their patients. It was increasingly felt that the management of hospitals and other healthcare institutions should be left to the care of professional managers specially trained for the job. The government too has recognized the need of these managers in public health and government run hospitals. However, there is a wide gap between supply and demand for trained healthcare managers/administrators in these sectors. Hence the requirement for Courses in Hospital and Health Care Administration was been felt.

Our educational programs in areas of Hospital and Health Care Administration aim to impart the knowledge and skills for management of specific areas of Hospital and Health Care sector. To meet challenges of this rapidly evolving field, our programs provide students with managerial and technical foundations for careers in scope areas of Hospital and Health Care systems, health insurance, NGOs and Public Health, healthcare IT and telemedicine, clinical trials, pharmaceutical management, Medical tourism, Quality assurance in healthcare, healthcare events management, Health laws and Medico-legal systems, Hospital design and architecture, Hospital mainstream and support services etc.

Objectives of CHMSR

- To create a center of excellence in healthcare management education, research and consultancy.
- To implement training programs and courses for fresh and those already employed in hospital and healthcare sectors to develop their capacity, beneficial both for them as well as their organization.
- To prepare creative and qualified managers and administrators for efficient management of Hospitals and Healthcare organizations by applying modern management techniques.
- To impart necessary knowledge and skills in highly competitive corporate and private Hospitals and Healthcare sector.
- To develop leadership skills in students through understanding of organizational and community problems, human psychology, organizational behaviour and global trends.
- To conduct specific research and find sustainable solutions for long term development of health problems and issues in health management.
- To participate in health policy development and reforms process through expertise sharing and cooperation.
- To offer consultancy services as part of knowledge sharing and help health care organizations develop projects to plan and implement their initiatives.
